

Dear Greg,

Trudi & I are writing this personal letter to you to thank you and your wonderful staff for building our 2nd Zuccala home.

You built our first home at Epping back in 2011, and now our 2nd home (is an investment) at Epping.

Your teamwork cannot be faulted nor can the communication skills between us and your staff in telling us what the finished product will look like and in both cases our expectations have been surpassed.

We are proud to say they are our homes and happy to tell family and friends that they were built by Zuccala Homes.

Your Workmen and Supervisors have shown consistency and quality in the work that other builders fail to reach.

Each of our homes have been built as if they were built for themselves (supervisors) it's the attention to detail you supply that other builders don't.

So finally we like to say a big thank you to all your staff for giving us 2 beautiful homes, and understand why you have been building beautiful homes for the past 55 years.

Yours Sincerely,

Paul and Trudi
