

I wonder if you can help me to get a copy of the plans for a house Mr. Vic Zuccala built for me in Mill Park in 1980. I no longer live at the property but rent it out... A pergola needs to be built at the back of the house...& I need to show the Council where and how the pergola will attach. Is it possible that a copy of the plans is still on file at Zuccala Homes after all these years? It was well built and never needed any repairs; may I add; thanks to Mr Zuccala' s quality workmanship. In April in 1980, when Mill Park was still rather bare, I was young, single then & quite ignorant of builder' s terms...& driving up Plenty Rd now is not what is used to be in the 1980' s. Mill Park was the northern-most frontier of Melbourne & actually we liked it that was as the original residents.

I am proud to have purchased my house from Zuccala Homes.

Sincerely

Anatole
